

Lihou - Team Games - Risk Assessment

What is the risk	Who Might be Harmed and How	Level of Risk	Control Measures Implemented	Remaining Risk After Controls
Falls	All participating person	Low	- Activities to be kept low to the ground - Charlotte's Web suspended using elastic - Activities requiring a degree of height to be spotted by participants and staff and done on forgiving ground with no projections or rocks - Consideration given to the use of helmets for high activities	Very Low
Entrapment in apparatus	All participating and supervising persons	Low	- No heavy items to be used - Staff to supervise and closely observe 'Stop' instruction to be clearly enforced and understood by all participants	Very Low
Uneven ground	All participating and supervising persons	Low	- Participants briefed not to climb walls for any reason - Participants instructed not to scramble on rock outcrops during the activity - Specific areas of high concern avoided by course layout or 'shepherding' - Participants can be directly shown the areas of concern	Very Low
Poisonous or hazardous plant forms	All participating and supervising persons	Medium	- Suitable footwear to be worn - Areas of concern avoided for activity - Area for activity to be inspected by all prior to commencement	Very Low
Injury caused by any of the above	All participating and supervising persons	Medium	- First aider present during activity and in known location/RV point - First aid kit situated in the house - Eye wash in the house - Defibrillator situated in the house - Emergency services trained and familiar with the house and island and familiar with both high and low water evacuation should it be required	Low

- The risk assessment is a general risk assessment for Lihou Island. It is not exhaustive and should be used in conjunction with a risk assessment written by the user group, making note of any special needs or issues that are specific to that group.
- For further information or to comment, please contact the warden.
