

Lihou Paddock Sports - Risk Assessment

What is the risk	Who Might be Harmed and How	Level of Risk	Control Measures Implemented	Remaining Risk After Controls
Rabbit holes and uneven ground	All participating and supervising persons	Low	- Hazards pointed out to all and shown - Obvious areas of concern highlighted and subsequently avoided - Consideration given for the appropriateness of 'dark hours' activities on the island with respect to the age and abilities of the participants - Robust footwear and not flip flops or sandals to be worn	Very Low
Hidden concrete well head	All participating and supervising persons	Low	- Area of activity to avoid the concrete well head so as to reduce the risk of tripping and injury - Well head kept locked and secure - Well head identified to all	Very Low
Poisonous or hazardous plant forms	All participating and supervising persons	Medium	- The island is inspected regularly for any such poisonous or irritating plants to help identify potential problems - Only known frequent plant of concern growing on Lihou is Deadly Nightshade (Berries in late summer/early autumn)	Low
Injury caused to other island users	Third party island visitors	Low	- Activity area clearly visible to others and other island users clearly visible to chosen playing area - Activity must ceased briefly if third parties walk through the area of activity - Supervisory staff member maintaining an overview of the area and not directly involved with the organisation or participation of the activity	Low
Injury caused by any of the above	All participating and supervising persons	Medium	- First aider present during activity and in known location/RV point - First aid kit situated in the house - Eye wash in the house - Defibrillator situated in the house - Emergency services trained and familiar with the house and island and familiar with both high and low water evacuation should it be required	Low

- The risk assessment is a general risk assessment for Lihou Island. It is not exhaustive and should be used in conjunction with a risk assessment written by the user group, making note of any special needs or issues that are specific to that group.
